Summary

Junior DevOps Engineer with hands-on experience working with AWS, Docker, Kubernetes, Terraform, Jenkins, GitHub Actions, and ArgoCD. Built CI/CD pipelines, automated AWS infrastructure using Terraform, and deployed containerized applications on Kubernetes. AWS Certified Cloud Practitioner.

Technical Skills

Cloud: AWS
Containers & Orchestration: Docker, Kubernetes
Infrastructure as Code: Terraform
CI/CD & GitOps: Jenkins, GitHub Actions, ArgoCD
Monitoring: Prometheus, Grafana
Configuration Management: Ansible
Programming: Python
Tools: Linux, Git, GitHub

Experience

Ministry of Communications and Information Technology (DEPI) 2025
DevOps Trainee

- Built CI/CD pipelines using Jenkins and GitHub Actions for automated application delivery.
- Provisioned AWS infrastructure using Terraform.
- Deployed and managed containerized applications on Kubernetes.
- Automated configuration and deployment tasks using Ansible in Linux environments.

Projects

Kubernetes Disaster Recovery Platform

- Designed and deployed a Kubernetes disaster recovery platform on AWS using Velero, Amazon S3, and EBS Snapshots.
- Automated cluster backups, persistent volume snapshots, and disaster recovery drills using Terraform.

AWS DevSecOps & GitOps Platform

- Built a DevSecOps platform on AWS using Terraform, Docker, Kubernetes, Jenkins, and ArgoCD.
- Implemented GitOps workflows with ArgoCD and integrated SonarQube, Trivy, and Gitleaks for automated code analysis and security scanning.
- Configured monitoring and logging using Prometheus, Grafana, Loki, and Alertmanager, and enabled Horizontal Pod Autoscaling.

Cloud Task Processing Infrastructure

- Containerized and deployed an asynchronous task processing application on AWS EKS using Docker and Kubernetes.
- Provisioned cloud infrastructure using Terraform and pushed container images to Amazon ECR.
- Managed web and worker workloads with background task processing using Redis and RabbitMQ.

Certifications

AWS Certified Cloud Practitioner May 2026
Amazon Web Services

Education

MET Academy Mansoura, Egypt
Bachelor of Computer Science GPA: 3.46/4.0 *2022 – 2026*
